Lyrics:

Over Mountains
 That's where my love lives
 A long, long ride to sunland
 Here where I did this

Across the great divide
 Alone (wondering open afraid and)
 Arriving alive unknown (unknown unwise and unaided)

If I could I might
 Send my love on a plane ride
 A black cross high in a blue sky
 A green cross gliding on a million pines

NOTES:

I'm not positive on the verse, but the rest is probably right. (send me any corrections)
 Any ideas on the solo?
 Any one want to help tab out the whole album?
