Semisonic - Chemistry

Tom: A
Intro: (E, D, A)

(E,D,A)
I remember when I found out about chemistry
It was a long, long way from here
I was old enough to want it but younger than I wanted to be
Suddenly my mission was clear

(E,D,A)
So for awhile I conducted experiments
And I was amazed by the things I learned
From a fine fine girl with nothing but good intentions and a
Bad tendency to get burned

(E,D,A)
All about chemistry
Won't you show me everything you know
Ah wonder what you do to me

(E,D,A)
Some time later I met a young graduate
When I had nobody to call my own
I told her I was looking for somebody to appreciate
And I just couldn't do it alone

(E,D,A)
So for awhile we conducted experiments
In an apartment by the River Road
And we found out that the two things we put together had a
Bad tendency to explode

(E,D,A)
All about chemistry
Won't you show me everything you've learned
I'll memorize everything you do to me so I can
Teach it when it comes my turn

D E A E
Fine spring day, California waves
A E
Sweet Pacific scenes through the
D A E
Windows of airplanes and hotel rooms

(E,D,A)
So when I find myself alone and unworthy
I think about all of the things I learned from the
Fine fine women with nothing but good intentions and a
Bad tendency to get burned

(E,D,A)
All about chemistry
Won't you show me everything you know
Ah wonder what you do to me

(E,D,A)
All about chemistry
Won't you show me everything you've learned
I'll memorize everything you do to me so I can
Teach it when it comes my turn

(E,D,A)
It's all about chemistry
It's all about chemistry

(E,D,A)
It's all about chemistry
It's all about chemistry
