i just tabbed the break part, i mean the acoustic part.  
it's a really cool riff, and you can figure the bass out  
easily...

i will work on the whole song later

time : 3.11

that's all, i play this with a classical guitar, normal  
tuning.  
play this near the strings are tied, not from the machine  
heads  
side the other side, you will have the same sound.
