

Sevendust - Rumble Fish

Tom: **E**

"I know.... what you.... feel."

I just figured out the dominant guitar parts to this song. Most of the other parts were more buried in the mix (or in unison). The tuning is 1 1/2 steps from standard tuning (with dropped **D**).

Chorus:

"Step down on the... slivering snake."

So it's Low to Hi: **B, F#, B, E, G#, Db**

"Rescue yourself..."

Intro:

(Bend up full step)

p.m. - - - - - | p.m. - - - - - |

p.m. - - - - - | p.m. - - - - - |
(means bend up 1/2 stp.)

2nd verse:

Same as 1st verse but add the fills that are in intro 1/2 way through the verse.

B section:

Same as the other **B** section.

Intro: to Bridge:

1st Verse:

p.m. - - - - - |
(The fill at the end of 1st verse is same as last fill of intro.)

Bridge Riff:

"Get up! Get up!"

B Section:

That's it. These are all the parts of the song. You can figure the complete arrangement. it's not that hard.

"Feel it... Let it go." etc...
