

# Shades Apart - Stranger By The Day

Tom: C  
Intro: B Gb E Gb  
B Bb Ab

[Primeira Parte]

Snow is falling from the sky in the middle of July  
Sun was shining in my eyes again last night  
Alarm goes off without a sound  
The silence is so loud, something isn't right  
Footsteps echo down the hall, no one's there at all  
Dial your number but your voice says, "I'm not home"  
Everything is inside out, I don't know what it's about

[Refrão]

It keeps getting stranger by the day  
Stranger by the day  
It keeps getting stranger by the day  
Stranger by the day

[Segunda Parte]

Going for a walk outside to see what I can find  
No reflections in the windows I pass by  
It feels hotter in the shade, water's running up the drain  
Something's going on  
Conversations with a mime stared at by the blind  
Imagination must be working overtime

The world is upside down, everything is turned around

[Chorus]

It keeps getting stranger by the day  
Stranger by the day  
It keeps getting stranger by the day  
Stranger by the day

[Solo] Db Gb B Bb Ab Db Eb Ab

[Ponte]

By the time I reach your door, I can't take anymore  
I just happened to be in your neighborhood  
I'm the one who gets surprised  
I don't believe my eyes, your alibi's no good  
Whatever happened to the world  
Whatever happened to the girl I thought I knew  
It just can't be true, I guess I'm losing you, yo---u

Stranger by the day  
Stranger by the day  
Stranger by the day  
It keeps getting stranger by the day  
Stranger by the day, yeah yeah  
(ah ahh) Stranger by the day  
(ah ahh) Stranger by the day  
(ah ahh) Stranger by the day  
Yeah, yeah

## Acordes
