Everybody needs an anchor
(G) C
A little something that makes you stay
G
An incentive, someone to fight for
F
Cause no one really needs so much space

A couple years ago I was lonely

I used to think that there was no God
G
But then you looked at me with your blue eyes
F
And my agnosticism turned into dust
C
How well you know me
G
That I don't care if the rest don't
Am (G)
It doesn't matter to me, no
F C
As long as you love me
Am
As long as we still have each other
C Am F
I knew we had something
G C
From the moment I met you
Am F
I knew we had something
G C
No one thought it could be true
Am F
Hey do you believe
G C
Do you believe in destiny?
Am F
'Cause I do as I did then
C Am F G C Am F

God knows that I'm a good dancer
(G) C
My feet can move to the music he plays
G
But there were times I asked for an answer
F
When he was acting in mysterious ways
Am
There were nights that I stayed up crying
(G) C
Cause I was certain that things wouldn't change
G

But then you came and I saw you smiling
F
Just like an angel, so beautifully strange
C
And then you touched me
G
It's like you were made for me, oh
Am (G)
Like it was all meant to be, oh
F C
And I was sure that you would love me
Am
And that we'd always have each other
C Am F
