I woke up to find the earth was round one day
        Em
                  G
And all around the world now, things began to change
                   G
Never had I ever seen the sun
        Em
                 G
                                   Am
Rise that way above the day to greet the dawn
And the earth shook beneath my feet
                    С
          Bm
And the storm raged through the nigh
          Bm
And I lost all that I had won
          Am
Oh but I flowed like the river
```

```
Flow o o o ohh
Em G Am
Flow wo wo ooh
So you think you got it all figured out
         Em
All this money in the bank and women all about
         Em
                     G
Well now whatcha gonna do when your ship starts to sink?
        Em G
                                     Am
Caught in a monstrous sea and you won't be able to think
Yeah and it's there you'll learn what I know
           Bm
                      C
That all of this world will fade
           {\sf Bm}
                      C
You gotta learn to let it all go
          Am
Oh and flow like the river

Flow o o o ohh
Em G Am
