

Shawn McDonald - Open Me

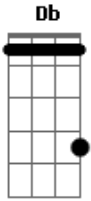

Tom: **Db**

TUNING: EADGB**D** (drop the high "e" to "d")

REPEAT-

This plays into the first verse, then the drums drown out the guitar. I suppose if you wanted to play solo the whole song you could make up some strumming with variations of G, **Cadd9**, D, or try 057700 and 024400 to get you started, which would be my best guess for the chorus. Good luck.
