

# Sheryl Crow - Safe and Sound

Tom: **C**

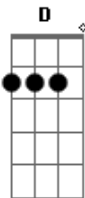

**D** **G** **Bm** **A**  
 Maybe this is forever, never fades away  
**D** **G** **Bm** **G**  
 maybe this is a rocket into space  
**A** **Am** **A** **Am**  
 I dont want to be sad, i dont want to break down  
**Dm** **G** **D**  
**Bb** **C** **G**  
 after all I wont let go till youre safe and sound x2  
**D** **Dm** **C**  
 there's beauty in release after all the seas  
**G** **A**  
 for you and me  
 I dont mind that you're crying  
 I know you really try  
 Maybe if I could hold on through the night  
 I don't be lonely I don't want to be scared  
 All our friends are waiting there

Till youre safe and sound x2  
 Theres beauty in release with no-one left to please  
 But you and me  
**D** **Bb** **C** **G**  
 Feel like I could have held on  
 Feel like I could have let go  
 Feel like I could have helped you  
 Feel like I could have changed you  
 Feel like I could have held on  
 Feel like I could have let you  
 Feel like I was a stranger  
 Feel like I was an angel  
 Feel like I was a hero  
 Feel like I was a zero  
 Feel like I could have touched you  
 Feel like I could have saved you  
 Feel like I could have held you  
 Feel like I could have moved you  
 Feel like I could have killed you  
 Feel like I could have told you  
 Feel like I could have loved you . . .
