

Shinedown - Black Cadillac

Tom: A

Verso:

I got a mind full of aggravation
 i can take it if i just relax
 i say a prayer for the motivation
 keep me solid so i stay on track

Pré refrão:

but there's a monkey on my back
 and it don't know how to act
 got me climbing up and down the walls
 now i got to make a choice
 maybe then i can rejoice
 'cause i'm sick of all the same withdraws
 i got a mind full of inspiration
 and i ain't living in the past no more

Refrão:

so feast your eyes
 on the big blue sky
 and wave bye bye
 from the long black cadillac
 pay the price
 got to roll those dice
 and wave bye bye
 from the long black cadillac

(from the long black cadillac)

Verso:

i hear the sirens of redemption
 screaming out like never before
 and there's a roadblock in every direction
 but i ain't stopping 'cause i'm in control

Pré refrão:

but there's a monkey on my back
 and it don't know how to act
 got me climbing up and down the walls
 now i got to make a choice
 maybe then i can rejoice
 'cause i'm sick of all the same withdraws
 i got a mind full of inspiration
 and i ain't living in the past no more

Refrão:

so feast your eyes
 on the big blue sky
 and wave bye bye
 from the long black cadillac
 pay the price
 got to roll those dice
 and wave bye bye
 from the long black cadillac
 ooh oo-oooh oo-oooh
 ridin' high in a long black cadillac
 ooh oo-oooh oo-oooh
 ridin' high in a long black cadillac
 in a long black cadillac!
