

Shinedown - Black Cadillac

```
Tom: A
I got a mind full of aggravation
i can take it if i just relax
i say a prayer for the motivation
keep me solid so i stay on track
Pré refrão:
but there's a monkey on my back
and it don't know how to act
got me climbing up and down the walls % \left( 1\right) =\left( 1\right) \left( 1\right) \left
now i got to make a choice
maybe then i can rejoice
  'cause i'm sick of all the same withdraws
i got a mind full of inspiration \stackrel{\rm D}{\text{\rm D}}
and i ain't living in the past no more
Refrão:
so feast your eyes
on the big blue sky
and wave bye bye
from the long black cadillac
pay the price
got to roll those dice
and wave bye bye
from the long black cadillac
 (from the long black cadillac)
i hear the sirens of redemption
screaming out like never before
and there's a roadblock in every direction
but i ain't stopping 'cause i'm in control
Pré refrão:
but there's a monkey on my back
and it don't know how to act
got me climbing up and down the walls
now i got to make a choice
maybe then i can rejoice
 'cause i'm sick of all the same withdraws
