Lyrics

Bb In an earthquake, it made space where I fell into you. In the starlight, you look so bright, you eclipsed the moon. On a highway just today, that's where I saw you. There was music from a distance burning through.

A She's here to rescue me, clear my mind and set me free. If it's dark, She still shines, a masterpiece made by design. She's here to rescue me, stain my mind with make believe. When it's dark, She still shines, She's my lady so devine. Lady so devine, come and change my mind, lady so devine.

A When the waves break and the souls take refuge from the night. On a mountain, there's a story told a thousand times of a garden and a bed there made to rest our eyes. There's a comfort to a softness that will not be denied

Bb She's here to rescue me, clear my mind and set me free. If it's dark, She still shines, a masterpiece made by design. She's here to rescue me, stain my mind with make believe. When it's dark, She still shines, She's my lady so devine. Lady so devine, come and change my mind, lady so devine.

In midnight sun, she saves me from what I have done. In midnight sun, she

saves me from what I have done, what I have done.

Devine, devine, she's my lady so devine. Lady so devine, come and change my mind. Lady so devine

NOTE: How old-school sound'in is this. This sounds like something Led song, guitar-wise. I'm about 95% done with that solo. But man, is it tough. It's probably the toughest transcription I've ever done. And probably the hardest thing to play. Anyway, listen very closely to the chord changes in the chorus, it's very tricky. Very good song from a very good cd. I really want it to go platinum, so I'm asking please get it. It's by far the best cd in my cd case (and I have some good cds). Anyway, pretty easy, besides the chord changes in the chorus, so LISTEN CLOSELY AND DON'T RATE THIS 1 STAR BECAUSE YOU DIDN'T HEAR GOOD ENOUGH. Speaking of 1 star, their is currently a tab beater, who keeps rateing my hard worked tabs 1 star. Some of them may not be just perfect, but their not 1 star, that just means that a tab is completely off. So if you can hear me, please stop rateing them 1 star, I work hard in means to provide the gonna find that in a 1 star rateing are they. So please quit. I would never do that to anyones tabs that didn't deserve it. Anyway, have fun playing, you Shine-Aziods. Well... ..ENJOY!!!
