## Sia - Magic

```
Tom: G
                                                                Magic in an ordinary life
Intro: G D Em C
                                                                G
                                                                I could see the rain come down
Now I don't wanna float to light
                                                                But I know the seeds be found
On a cloud of man-made ice
                                                                Em
                                                                I'm gon' watch 'em grow up now
Fm
Don't want it to pass me by
                                                                I'm gon' watch 'em grow up now
Don't want it to pass me by
                                                                In the flower's face I see
Saddle up now for the ride
                                                                In the flower's face is me
Waiting for the moon to rise
                                                                I'm gon' watch me grow up now
Fm
Don't want life to pass me by
                                                                I'm gon' watch me grow up now
Don't want life to pass me by
                                                                But I've been waiting for a magic moment
                                  Fm
But I've been waiting for a magic moment
                                                                                             Am
                                                                But maybe there are magic moments
But maybe there are magic moments
                                                                Could it be a magic moment now?
Could it be a magic moment now?
                                                                I've been waiting for a magic moment
                               Fm
I've been waiting for a magic moment
                                                                But maybe there are magic moments
But maybe there are magic moments
                                                                Baby it's a magic moment now
Baby it's a magic moment now
                                                                 G
                                                                                              D
                                                                But darling it's a magical, magical life, life, life
                     G
But darling it's a magical, magical life, life, life
                                                                                     Em
                                                                Oh, honey, it's a magical, magical life, life, life
                     Em
Oh, honey, it's a magical, magical life, life, life
                                                                                      G
                                                                And baby it's a magical, magical life, life, life
And baby it's a magical, magical life, life, life
                                                                When you can find the magic in an everyday night, night, night
                       Em
When you can find the magic in an everyday night, night, night
                                                                Magic in an everyday night
Magic in an everyday night
                                                                Magic in an everyday night
Magic in an everyday night
                                                                Fm
                                                                Magic in an ordinary life
