

# Sia - Midnight Decisions

Tom: G

Remember when we had it all? Remember when you took my calls?

You were my whole world You were my whole world

Not a thing said to me Question now if my heart bleeds

You were my whole world You were my whole world

I can't stop watching my phone Can't turn it off

What is wrong with me? I can't, baby But if you change your mind

Then I'll miss it Now I'm crying alone Hotel, never much fun

Not when there's nobody to catch your tears Out here

I know Last night we made some midnight decisions

Did I mess up? Oh God I hope I didn't

It's all a blur when we talk through the liquor

I always regret midnight decisions

I always regret midnight decisions

I always regret midnight decisions

I always regret midnight decisions

I always regret midnight decisions

Bm

Soothe me now, soothe me, old friend Warm my body, dunk my head

He was my whole world He was my whole world

Kill the chattering Keep the voices from screaming

He was my whole world He was my whole world

I can't stop watching my phone Can't turn it off

What is wrong with me? I can't, baby But if you change your mind

Then I'll miss it Now I'm crying alone Hotel, never much fun

Not when there's nobody to catch your tears Out here

I know Last night we made some midnight decisions

Did I mess up? Oh God I hope I didn't

It's all a blur when we talk through the liquor

I always regret midnight decisions

I always regret midnight decisions

I always regret midnight decisions

I always regret midnight decisions

I always regret midnight decisions

Pull me out, I wanna fall Fall into the rabbit hole

Just pull me out, the pain is great The pain of losin' you today

I'm in here bawling, just a friend Never thought we'd meet again

But here you are, one more, again You're calling me You're calling me

I know Last night we made some midnight decisions

Did I mess up? Oh God I hope I didn't

It's all a blur when we talk through the liquor

I always regret midnight decisions

I always regret midnight decisions

I always regret midnight decisions

I always regret midnight decisions

I always regret midnight decisions
