С F Thell her when it rains i don't feel it Tell her i'm to blame didn't see it Winter's snows don't hide my woes F I can't lie to you Am I tried to warm her that sometimes we fall G in the dark Am It's summer time F Singing Al Green in your car Am Heading into a party F G And the night air feels alive Just sitting here i'm waiting, oh, yeah And he's not by my side Feeling dazed and i can't get out Stuck in yesterday He don't know it i rarely show it
