

Sigrid - Burning Bridges

tom:

Intro: B Abm Ebm Db
B Abm Ebm Db

I could tell you the truth
But you'd call me a liar (Liar, li-liar)
Tried to wave a white flag
But you set it on fire (Fire)
(And that's when you start asking yourself why)

You cry, they don't
Every single night
That's how you know

You gotta let it go, sometimes you just can't fix it
You love somebody, love somebody
But you gotta let them go
Before you go down with 'em
Can't love somebody who loves burning bridges

(B Abm Ebm)

Db
Burning bridges

(B Abm Ebm)

I use sorry to keep you
And that was my error (Error, my error)
Mmh, 'cause that tore me apart
Trying hold us together (Together)

(And that's when you start asking yourself why)

You cry, they don't
Every single night
That's how you know

You gotta let it go, sometimes you just can't fix it
You love somebody, love somebody
But you gotta let them go
Before you go down with 'em
Can't love somebody who loves burning bridges

You cry, they don't
That's how you know
You cry, they don't
That's how you know

You gotta let it go, oh, oh
Sometimes you just can't fix it
You love somebody, love somebody

But you gotta let them go

Before you go down with them
Can't love somebody who loves burning bridges

You cry, they don't
That's how you know
You cry, they don't
That's how you know
