Α Every moment starts Α I hear the ring in my ears С Everybody's is here Α We ever hear the sound F Another sky is born С Α It comes into sight С There were things go down Α Around my yesterday Walking by the side Α I look across the line F Every season runs С Α It comes into sight С Winter has come Α With the wind C Winter is here Α The whisper of leaves Winter's play Α The wind is blowing C A Run to me С Every moment starts I hear the ring in my ears C Everybody's is here Α We ever hear the sound F Another sky is born Α С It comes into sight
