

# Silverchair - Across The Night

Tom: Ab

Across the night  
 It was the moon that stole my slumber  
 Across the night  
 I fell in love with people sleeping  
 ( C Bb F ) (3x)

I fell sad,  
 asleep in a golden ocean  
 Your eyes perspired,  
 a spike in my fascination

I don't mean to make you cry  
 But this feeling will run right through the night  
 And I'll only make you cry with these feelings

Across the night  
 It was the moon that stole my slumber  
 Across the night  
 I fell in love with people sleeping  
 Across the night, Across the night  
 Across the night, I hugged a mans arthritic shoulders  
 ( C Bb F ) (3x)

Sleepless, untamed without a leash on the light around me

I don't mean to make you cry

But this feeling will run right through the night  
 And I'll only make you cry with these feelings

Across the night  
 It was the moon that stole my slumber  
 Across the night  
 I fell in love with people sleeping  
 Across the night, Across the night  
 Across the night, I hugged a mans arthritic shoulders

So let us be married and have another baby  
 Coz I don't wanna be lonely I just wanna be alone  
 Yes let's just get married shouting baby, baby, babies  
 You'll never sleep at all"  
 But I don't wanna be lonely
