                                                             http://members.aol.com/denbourdon/silverbsides.htm
    TUNING - Dropped-D (DADGBE)
                                                             Tablature explanation
/ - slide up
                                                                : bend
PM - palm mute
                                                                 : slide
                                                                 : hammer-on
                                                                : pull-off
                                                                 : muffled string
                                                             P.M.: palm mute
I'm just another body down
Internal bleeding round and round
                                                             Dropped-D tuning
GTR1
                                                             [0:00]
                                                                       F C C
GTR 2
                                                                    I'm just another body down
                                                                    Internal bleeding round and round
And all I can think of, are ways to die alone...
                                                             [0:21]
                                                                 A2 B G Fmai7#11
                                                                   And all I keep thinking of are ways to die alone (X2)
    (distortion)
                                                             [0:43]
A portrait of my skeletal gain
                                                                           C C F
                                                                                              Bb D Bb D
Left selfish and hungry so feed me the pain
                                                             A portrait of my skeletal gain
                                                                   Left selfish and hungry so feed me the pain
                                                             [1:02]
                                                                    F C C F
Escape reality with new pain
                                                                Escape reality with new pain
    PM
                                                                   F C C F
  (distortion)
                                                                                                Bb D
                                                                                                           x4
Then let the cycle start again
                                                               Then let the cycle start again
                                                             [1:25]
GTR 2
                                                                   And all I keep thinking of are ways to die alone (X2)
And all I can think of, are ways to die alone...
                                                             [1:45]
                                                                                             FF
                                                                 Dream of content, a pain filtered farm, all I can say...
Dream of content, a pain filtered farm
                                                             [2:00]
                                                                        F C C F
                                                                   Dreams are bad when all they do is leave the truth
Dreams are bad when all they do is leave the truth behind...
                                                                   Dreams are bad when negativity's a state of mind
(piano parts)
            [play this riff 4x]
                                                                   A G B X4 A G
                                    PM_
