

Silverchair - Miss You Love

```
Tom: G
                                                           But I hate the way
  Millionaire say
                                                           I'm supposed to love you back and
       D
Got a big shot deal
                                                           It's just a fad
                                                           Part of the, teen, teenage angst brigade and
And thrown it all away, but
But I'm not too sure
How I'm supposed to feel
                                                              I'm not,
                                                                       not sure, not too sure how it feels
Or what I'm supposed to say, but
                                                           To handle every day
                                                           Like the one that just past
  I'm not, not sure, not too sure how it feels
                                                           In the crowds of all the people
              Em
To handle every day
                                                             Remember today
    Am G D
And I miss you, love
                                                               Gbm7 E
                                                           I've no respect for you
                                                           D A E And I miss you,
  Make room for the prey
         D
'Cause I'm coming in
                                                           And I miss
                                                                           you,
                                                                                     love
With what I wanna say, but
                                                           Gbm7 E
           G
                                                              Remember today
 It's gonna hurt
                                                               Gbm7 E
And I love the pain
                                                           I've no respect for you
A breeding ground for hate, but
                                                                   D A
                                                                UILSS YOU,

I'm not, not sure, not too sure how it feels
                                                           And I miss you,
To handle every day
                                                              I love the way you love
                                                           But I hate the way
                                                                                    C G D
Like the one that just past

                                                           I'm supposed to love you back
In the crowds of all the people
