

# Silvestre Kuhlmann - Estrela

tom:

G

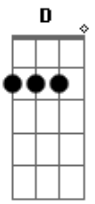

Chegou manhã, o brilho da lua não se apagou  
 Chegou a noite, o calor do sol não se esfriou  
 Chegou o inverno e as flores e frutos não perdem cheiro e sabor

Estrela cadente, outrora tão longe, de mim se aproximou  
 Você chegou

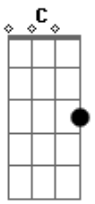

Chegou o frio, estou aqui pra te aquecer

Chegou o cansaço, venha em meu colo adormecer  
 Chegou com medo, venha em meus braços se proteger  
 Chegou carente, aqui estão meus lábios e abraços só pra você  
 Só pra você, lua, sol, primavera  
 Estrela cadente  
 te aprecio  
 Venha em meus braços se proteger  
 Estrela carente, aqui estão meus lábios e abraços só pra você  
 Só pra você
