

Simple Plan - I Can Wait Forever

```
But I can wait, I can wait forever (I can wait forever)
  No acorde Ab vc pode fazer o D#, mas com o baixo em G fica
melhor!
                                                                When you call, my heart stops beating
                                                               When you're gone, it won't stop bleeding
You look so beautiful today
                                                               But I can wait (I can wait)
           Dh
When you're sitting there
                   Eb D#sus
                                                               I can wait (I can wait)
     Ab
It's hard for me to look away
                                                               I can wait forever
    Ab
                    Ab
So I try to find the words that I could say
                                                               Solo: G - Eb - Fm - - Db - Ab - Eb
          Db
I know that distance doesn't matter
       Fb
                    D#sus - Eb
But you feel so far away
          Bhm
And I can't lie
Everytime I leave my heart turns grey
                                                                I know it feels like forever (Feels like forever)
                                        Fb
                                                                 Bbm
And I, wanna come back home to see your face tonight
                                                                I guess that's just the price I've got to pay
                                                               But when I come back home,
And I just can't take it
                                                                To feel your touch makes it better (Makes it better)
Another day without you with me
                                                                Until that day there's nothing else that I can do
Is like a blade that cuts right through me
                                                               And I just can't take it (I just can't take it)
But I can wait, I can wait forever
When you call, my heart stops beating
                                                                Another day without you with me
When you're gone, it won't stop bleeding
                                                                Is like a blade that cuts right through me
                                                               But I can wait, I can wait forever (I can wait forever)
But I can wait, I can wait forever
                                                               When you call, my heart stops beating
           Ab
You look so beautiful today
                                                               When you're gone, it won't stop bleeding
         Db
                      Ab
It's like everytime I turn around
          D#sus Eb
                                                               But I can wait (I can wait)
I see your face
                                                               I can wait (I can wait)
   Ah
The thing I miss the most is
                                                                I can wait forever (I can wait forever)
Waking up next to you
     Db
When I look into your eyes
              D#sus
I wish I could stay
                                                                I can wait forever
          Bbm
And I can't lie
                                                                              Eb
                                                                                          \mathsf{D}\mathsf{b}
Everytime I leave my heart turns grey
                                                                I can wait forever
And I, wanna come back home to see your face tonight
And I just can't take it
                                                                             Ab
                                                                I can wait forever
Another day without you with me
                                                                I can wait forever
                                                                                          Db
Is like a blade that cuts right through me
                                                               I can wait forever
