

Simple Plan - You Suck At Love

Tom: Eb

(com acordes na forma de Capostraste na 2ª casa Db)

We started off incredible
 Connection undeniable
 I swear I thought you were the one forever
 Your love was like a loaded gun
 You shot me down like everyone
 Cause everyone's replacable
 But you are so incapable
 Of getting that indeed
 Whoa Oh Oh
 Guess what, another game over
 I got burned but you're the real loser (hey!)
 I don't know why (hey!), I've wasted my time with you
 Whoa Oh Oh

You're bad news, a history repeater
 You can't trust a serial cheater
 You're good at hooking up but you suck at love
 But you suck at love

You played me like an amateur
 Then stabbed me like a murderer
 I'm left for dead, another one of your victims
 It's not like you're unpredictable
 And your act is so believable
 I know it's nothing personal
 It's just business as usual
 You're good at what you do
 Whoa Oh Oh

Guess what, another game over
 I got burned but you're the real loser (hey!)
 Whoa Oh Oh

I don't know why (hey!), I've wasted my time with you
 Whoa Oh Oh

You're bad news, a history repeater
 You can't trust a serial cheater
 You're good at hooking up but you suck at love
 But you suck at love

Now I kinda feel bad for you
 You're never gonna know
 What it's like to have someone to turn to
 Another day, another bed
 It's just a game inside your head
 Whoa Oh Oh

Guess what, another game over
 I got burned but you're the real loser (hey!)
 I don't know why (hey!), I've wasted my time with you
 Whoa Oh Oh

You're bad news, a history repeater
 You can't trust a serial cheater
 You're good at hooking up but you suck at love

Guess what, another game over
 I got burned but you're the real loser (hey!)
 I don't know why (hey!), I've wasted my time with you
 Whoa Oh Oh

You're bad news, a history repeater
 You can't trust a serial cheater
 You're good at hooking up
 (You're good at hooking up)
 You messed the whole thing up
 (You messed the whole thing up)
 You were such an awesome fuck

But you suck at love
 You suck at love
