

# Sister Hazel - Vacation Rain

Tom: A  
Intro: D A E A D A E E

I shut my eyes and it all comes racing in  
Every time it rains, I can feel you on my skin  
A storm of chance, when fate was hard to find  
Se - ven days that we left behind

[D A E A 2x]

[Verso 2]

Everything we were, everything underneath the sun  
The waves kept crashin', and a storm had just begun  
Forces colliding to one moment in time  
For se - ven days, when it rained you'd shine

[Refrão]

Remember the nights, Remember the days,  
Remember the va - cation rain,  
Remember the way I used to taste,  
Remember the va - cation rain- rain- rain, rain- rain- rain

[D A E A]

[Verso 3]

The earth was shaking, and the ground was getting wet  
The time we were taking, I never will forget

Summer winds were changing and coming to an end  
Se - ven days we'd never see again

[Refrão]

Remember the nights, Remember the days,  
Remember the va - cation rain,  
Remember the way I used to taste,  
Remember the va - cation rain- rain- rain, rain- rain- rain

[Gbm - E - D]

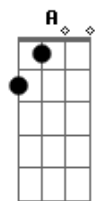

Don't it take you back like a photograph Hangin in your mind  
frame  
Wish that I could go back (that's a fact) But it never feels  
the same when it rains

Every now and then I wanna feel that way again For se - ven  
days

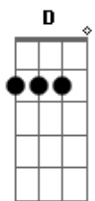

[Refrão]

Remember the nights, Remember the days,  
Remember the va - cation rain,  
Remember the way I used to taste,  
Remember the va - cation rain- rain- rain, rain- rain- rain  
The crash of the waves that we felt break  
Remember the va - cation rain- rain- rain
