                                                                                                                                                                                                                                               Calm down, calm down
                                                                                                                                                                                                                                                              Em G
                                                                                      Em
And it kills me 'cause I get worked up and you get worked up
                                                                                                                                                                                                                                               Calm down, oh, calm down
And we get worked up for nothing, yeah
                                                                                   Gbm
                                                                                                                                                                                                                                               Oh, my brother, sister, my mother
I get worked up and they get worked up
                                                                                                                                                                                                                                               Got to get together, oh, calm down
And we get worked up for what?
                                                                                                                                                                                                                                               Oh, calm down
