

Sleep Token - Euclid

tom:

[Primeira Parte]

D
Just run it back, give me five more
Gbm
Minutes, I am
D Gbm
Thick tar on the inside burning
D Gbm
I've got a ghost in the hallway grinning
And a
D A
Heavy head that won't stop turning
D Gbm
If my fate is a bad collision, and if
D Gbm
My mind is an open highway
D A
Give me the twilight two-way vision
D
Give me one last ride on a sunset sky lane

[Refrão]

E
Call me when you get the chance
D
I can feel the walls around me closing in

[Segunda Parte]

D Gbm
Just running forwards, a life like wires
As I
D A
See the past on an empty ceiling
D Gbm
I play along with the life signs anyway
But
D A
Hope to God you don't know this feeling
D Gbm
Yet in reverse you are all my symmetry
D A
A parallel I would lay my life on
D Gbm
So if your wings won't find you heaven
D
I will bring it down like an ancient
Bygone

[Refrão]

E A Gbm
Call me when you have the time
D
I just need to leave this part of me
Behind

[Terceira Parte]

A D Gbm E
Do you remember me
A E
When the rain gathers?
D A D Gbm E
And do you still believe
A E
That nothing else matters?
A
For me
D A
It's still the autumn leaves
D Gbm Gbm
These ancient canopies
A
That we used to lay beneath

D A
No, by now
D A
The night belongs to you
D Gbm Gbm
This bough has broken through
D
I must be someone new

[Ponte]

E A
No, for me (Just run it back, give me five
Whole minutes, I am)

(Thick tar on the inside burning) It's

D A
Still the autumn leaves

A
(I've got a ghost in the hallway grinning
And a)

(Heavy head that won't stop turning) These
D Gbm
Ancient canopies

Gbm
(If my fate is a bad collision and)

(If my mind is an open highway) We used to

A
Lay beneath

A
(Give me the twilight two-way vision)

(Give me one last ride on a sunset sky

D A
Lane) No, by now

A
(Just running forwards, a life like wires
As I)

(See the past on an empty ceiling) The

D A
Night belongs to you

A
(I play along with the life signs anyway
But)

(Hope to God you don't know this feeling)

E Gbm
This bough has broken through

Gbm
(Yet in reverse you are all my symmetry)

(A parallel I would lay my life on) I must

A
Be someone new

(So if your wings won't find you heaven)

E
No

E
(I will bring it down like an ancient
Bygone)

[Final]

Gbm
The whites of your eyes

A D
Turn black in the lowlight

Gbm
In turning divine

A D
We tangle endlessly

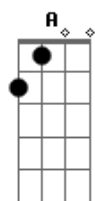

Gbm
Like lovers entwined

A D
I know for the last time
Gbm

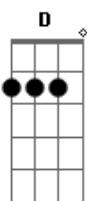

You will not be mine

A D
So give me the night, the night, the night
