       (intro 2x) D A Bm A G

```
D
Remember all the things we wanted
A
Now all our memories, they're haunted
Bm                       G
We were always meant to say goodbye
D
Even with our fists held high
A
It never would've worked out right
Bm                    G
We were never meant for do or die

Em                   G
I didn't want us to burn out
Em                       A
I didn't come here to hold you

Now I can't stop
```

(chorus)
```
D                A               Bm                    G
I want you to know that it doesn't matter where we take this
road
            D
Someone's gotta go
D               A                         Bm
I want you to know you couldn't have loved me better
                  G
But I want you to move on
            D
So I'm already gone
```

(verse 2)
```
D
Looking at you makes it harder
```

```
A
But I know that you'll find another
Bm                             G
that doesn't always make you want to cry
D
Started with a perfect kiss then
A
we could feel the poison set in
Bm                         G
Perfect couldn't keep this love alive

Em               G
You know that I love you so I
Em         A
love you enough

to let you go
```

(chorus 2)
```
D            A              Bm                         G
I want you to know that it doesn't matter where we take this
road
                     D
Someone's gotta go
D            A                          Bm
I want you to know you couldn't have loved me better
                     G
But I want you to move on
                     D
So I'm already gone
                        A
I'm already gone
                Bm
Already gone
                          G                      D
You can't make it feel right when you know that it's wrong
                A
I'm already gone
          Bm
Already gone
                  G
There's no moving on
                  D
So I'm already gone
```
