 \mathsf{Am}
Stay for tonight if you want to
                                                                  But I swear that I will never leave
I can show you what my dreams are made of
                                                                  Please, stay forever with me
As I'm dreaming of your face
                                                                  (FGFG)
I've been away for a long time, such a long time
                                                                  The way that we are
And I miss you there
                                                                  It's the reason I stay
I can't imagine being anywhere else
                      Ab
                                                                  As long as you're here with me
I can't imagine being anywhere else, but here
                                                                  I know we'll be OK
How the hell did you ever pick me?
                                                                  The way that we are
Honestly, I could sing you a song
                                                                  It's the reason I stay
But I don't think words can express your beauty
                                                                  As long as you're here with me
It's singing to me
                                                                  I know we'll be OK
How the hell did we end up like this?
                                                                  Refrão:
You bring out the beast in me
I fell in love from the moment we kissed
                                                                  They say that love is forever
                      Ab
Since then we've been history
                                                                  Your forever is all that I need

Can't promise that things won't be broken

It goes to show, I hope that you know that you are

What my dreams are made of
Can't fall asleep, can't fall asleep
I lay in my bed awake, in my bed awake at night as I dream of
                                                                  (I couldn't love just anyone, I was created to love just one
I'll fall in love, you'll fall in love
                                                                  Can't promise that things won't be broken
It could mean everything, everything to me
                                                                  But I swear that I will never leave
I can't imagine being anywhere else
