

## **Sleeping With Sirens - Legends**

```
tom:
                Cm (forma dos acordes no tom de Am )
Capostraste na 3^{\underline{a}} casa
                                                   F7M
            Am
We could be legends, we could be legends
We could be legends, we could be legends
We could be legends after all
                                                                 Hey woh-oh-oh
Hey woh-oh-oh
We could be legends after all
                                                                 Hey woh-oh-oh
Hey woh-oh-oh
We could be legends after all
Do you remember being young
The world in our hands, your heart in a song
Do you remember being young (remember, remember)
Nothing's ever what it seems
Forget who you are, forget how to dream
I think it's time that we believe (remember, remember)
We could be wild, we could be free
We can be anything in life we wanna be
We could move mountains
We could break walls
We can stand tall enough to fight and never fall
We could be legends after all
Hev woh-oh-oh
We could be legends after all
Hey woh-oh-oh
                                                                 Hey woh-oh-oh
We could be legends after all
                                                                 Hey woh-oh-oh
Do you remember growing up
Standing all alone, your back to the sun
Do you remember growing up (remember, remember)
Tell me how it's gonna be, if we win or lose wear your heart
on your sleeve
                                                                 remember)
I think it's time that we believe (remember, remember)
                                                                 We'll be here forever
```

## We could be wild, we could be free We can be anything in life we wanna be We could move mountains We could break walls We can stand tall enough to fight and never fall We could be legends after all We could be legends after all We could be legends after all We could be legends, we could be legends (we could be legends We could be legends, we could be legends F7M Stand up and shout it out if you want it (remember, remember) Reach out and touch the sky 'cause you got it We'll be here forever Stand up and shout it out if you want it (remember, remember) Reach out and touch the sky 'cause you got it We'll be here forever We could be wild, and we could be free We can be anything in life we wanna be We could move mountains, we could break walls We can stand tall enough to fight and never fall We could be legends after all We could be legends after all We could be legends after all Stand up and shout it out if you want it (remember, remember) Reach out and touch the sky 'cause you got it (remember,
