Slow Club - Because we´re dead
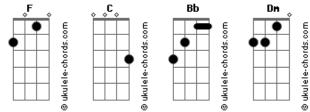

```
Tom: F

             F
I could say
       C
That I do
       F
But I don't
         Bb            C
You could wrap a million candles
  F    Dm      Bb         C           F
Into a torch and hope that it stears you home

         F        C         F
You could cut all the telephone wires
     F       C           F
And hope that nobody does get through
      Bb           C
I might not have the power
  F        Dm
Of telepathy
         Bb      C         F
But, I'm gonna be contacting you

         F           C         F
Because i borrowed a book that I saw
     F      C           F
Was planted deep inside your bag
     Bb          C
It gave me an excuse
    F        Dm
To see you again
          Bb       C
But I'm not a theif
                 F
I'll give it back

  F        C     F
Don't you ever wonder
       F      C     F
Who's living in that house
       Bb          C
It's too small for people
F       Dm
We all said
              Bb          C             F
But there's people in the floorboards said the mouse

         F            C          F
And I showed you the things that I'd made
         F           C         F
You didn't think that they were too great
         Bb           C
But I'm glad that you thought of it
     F         Dm
Think what you're taught
            Bb       C         F
Because everybody else's mind is grey
```

```
         F        C         F
We kept up the act for, two-o-o-o-o
   F        C           F
Dates before it needed blue
              Bb            C
I didn't drink what you drank
              F        Dm
You didn't sink when I sank
           Bb       C               F
So, there's little else for us to do

Don't you ever wonder
Who's living in that house
It's too small for people
We all said
But there's people in the floorboards said the mouse

Said the mouse

       F        C         F
I didn't say, Goodbye today
        F          C        F
Oh, I did it, The cowards way
         Bb                C
I tied it to the net, girl
    F             Dm
To see where it gets
          Bb       C
To go sailing on
                F
Down your way

          F        C         F
But you poured petrol all over
        F        C          F
The ship you used to sail the sea
     Bb           C             F        Dm
You didn't think that you'd be coming home again
Bb           C         F
   So, you said Bye to me

   F        C     F
Don't you ever ponder
        F        C     F
On things we never said
    Bb      C
Yes I did
          F           Dm
But when we were kids
             Bb       C
Now it's too late
              F        C
Because we're dead
              F        C
Because we're dead
              F        C
Because we're dead
                   F
Because we're deeeeeeeeaaaad
```
