

# Smallpools - Million Bucks

tom:

E

[Primeira Parte]

Some people say there's nothing really real here  
 They paint it like a sun without a soul  
 So I thought I could love nothing but the breeze here  
 But I fell hard for what just blew in off the coast

[Pré-Refrão]

State I'm in right now  
 Salt drips from her brow  
 No more days without  
 Makes me feel so right  
 I can do no wrong  
 We'll keep going strong

[Refrão]

I've got all my money on you  
 And though my dollars are few  
 I feel like a million bucks  
 And I give no fucks when I'm with you  
 Got all my money on you  
 And though my dollars are few  
 I feel like a million bucks, a million bucks

[Segunda Parte]

I used to be a skeptic non-believer  
 But now it's changed, you're worth your weight in gold  
 The richest love ain't growing on the trees out here  
 But confidently, I can say I'm sold

[Pré-Refrão]

State I'm in right now  
 Salt drips from her brow  
 No more days without  
 Makes me feel so right  
 I can do no wrong

Dbm E

We'll keep going strong

[Refrão]

I've got all my money on you  
 And though my dollars are few  
 I feel like a million bucks  
 And I give no fucks when I'm with you  
 Got all my money on you  
 And though my dollars are few  
 I feel like a million bucks, a million bucks  
 I feel like a million bucks  
 And I give no fucks when I'm with you

[Ponte]

The ceiling's just the start  
 Reaching for a star  
 A bullseye from a dart  
 The ceiling's just the start

[Refrão]

I've got all my money on you  
 And though my dollars are few  
 I feel like a million bucks  
 And I give no fucks when I'm with you  
 Got all my money on you  
 And though my dollars are few  
 I feel like a million bucks, a million bucks  
 I've got all my money on you  
 And though my dollars are few  
 I feel like a million bucks  
 And I give no fucks when I'm with you  
 Got all my money on you  
 And though my dollars are few  
 I feel like a million bucks, a million bucks  
 I feel like a million bucks  
 And I give no fucks when I'm with you
