

# Snow Patrol - Days Without Paracetamol

Standard Bass Tuning

Intro: [0:00]

No bass

VERSE[0:38]

This is the basic riff for the verse and chorus; it comes in at "falls asleep..."

```
G|-----|-----|
D|-2-2-2-2-5-5-5-5-|-----2-3-2-----|
A|-----|-----|
E|-----|-----|
(RIFF 4 TIMES)
```

CHORUS[0:53]

Same as the first verse; played two more times without any vocals though.  
(RIFF 6 TIMES)

VERSE[1:16]

Same as the first verse; it comes in at "round the..."  
(RIFF 4 TIMES)

CHORUS[1:32]

The riff played 4 times, again :P.

GUITAR RIFF[1:49]

I can't hear any bass over the distorted guitar, but if you like, when the guitar is playing, play this:

```
G|-----|-----|
D|-----|-----|
A|-3-3-3-3-5-5-5-5-|-----|
E|-----|-----|
```

Bass then plays this after each progressive guitar riff:

```
[1:53] & [2:00]
G|-----|-----|
D|-2-2-2-2-5-5-5-5-|-----5---5---|
A|-----|-----|
E|-----|-----|
```

It's then played one more time entering the verse.

VERSE[2:06]

Same as the first and second verses; it comes in at "more each day..."  
(RIFF 4 TIMES)

CHORUS[2:24]

Same as the other chorus.  
(RIFF 4 TIMES)

GUITAR RIFF[2:40]

Same as the first one. This time the bass is played at:  
[2:44], [2:51] & [2:58]

OUTRO[3:07]

```
G|-----|-----|
D|-2-2-2-2-5-5-5-5-|-2-2-2-2-5-5-5-5-| x4
A|-----|-----|
E|-----|-----|
```

On the last couple of repeats of that, slow the tempo down a bit. Finish on an **E** (2nd fret **D** string) and let ring. The song's ended there!

LYRICS

VERSE

When summer falls asleep  
And winter plucks your strings  
The colder that you get  
Makes you feel at home

CHORUS

Build it up (Throw it away) x16

VERSE

If I come round there now  
Would you be pleased to see me  
I wouldn't make much noise  
Just whimper to myself

CHORUS

Build it up (Throw it away) x16

VERSE

My head hurts more each time  
The drinking strangles me  
Believe in God, like hell  
Believe in hell, by God

CHORUS

Build it up (Throw it away) x16
