## **Social Repose - Filthy Pride**

```
Tom: C
Intro: Dm A F G
[Verse 1]
Heavy-handed Rapid fire
Infatuation With my filthy pride
To a senseless beating Crippled and barely breathing
G
I tore off my skin I'll hang from this noose
Dm
This is what happens when I show you my demons
Repeating the cycle that turns love into indifference
When I chase after affection, it won't chase after me
I get confused on why we always part so violently
Dm
But honestly
The day I met you I started dying
[Chorus]
Dm F
Oh I should've known a little better
  Good things never last forever
Dm
Oh My heart in repose
   I need you the most
Dm F
Oh Feed me to the wolves
   Like I don't have a pulse
Dm
              F
Oh 'Cause the day I met you
           Dm
I started dying
Dm A
[Verse 2]

Mindless madness I am clueless
Thoughtless choices I ruin myself
Tear into me like an unknown disease
