

# Soen - Vitals

tom:  
Intro: C7 Em7 Gm D

After you're gone  
After you drifted away  
To reach for the sun  
Searching for a home

Well I'm not alone

For what it matters  
I'm sailing for the cure  
Chasing the dark  
Drowning in stars

After you're gone  
I'm dancing with the angel of the fall  
My saviour is here within a call  
To give me an answer to it all

Just say you're alive  
Take this needle from my side  
Say you're alive

Don't you play with my mind  
'Cause I don't wanna feel no more  
No, I don't wanna feel  
[Solo]  
After you're gone  
Nothing really matters anymore  
Blood keeps dripping on the floor  
Slowly I'm losing control  
Th? air I breathe reminds m? of the doubts I've had before  
Just say you're alive  
Take this needle from my side  
Say you're alive  
Don't you play with my mind  
Appear from the sky  
Don't hold me in blindness no more  
Don't leave me here alone  
Or peacefully I'll join  
'Cause I don't wanna feel no more  
No, I don't wanna feel  
[Final]

## Acordes
