(solo)	is unsure what this emotion promises what kind of pain and strain it is so many times Ive done that before told myself that I should know more Seek and get past it, now that I lost it there is no bridge, so how can i cross it? Down so low in the valley of decision Clouded mind disturbing my vision Bleeding heart affecting my vision compromising on this love mission and no matter how me try, still she cant just satisfy now could the truth be a lie water drop out of me eye cuz me see the well run dry I tried
(verso)	
<b>Bb</b> Thoughts of you run over in my mind and I try so hard to just press rewind to find	(repetir acordes do refrão)
<b>Bb</b> and its something I held maybe one time and I	Cuz I tried to change and I tried to stay, tried to stay the same And I tried to work And I tried for her, her, her I tried (2 Solo de guitarra)
and all I do is think	
<b>Bb</b> But thinking about you never brought you back	
<b>Dm</b> So far from you in my mind I go	
<b>Bb</b> But my heart hurts, it brings me back before I know	
<b>Dm</b> So all I do is think	
(refrão)	
<b>Bb</b> Cuz I tried to change	(repetir acordes do verso)
<b>Dm</b> and I tried to stay, tried to stay the same	No i cant forget that day I got you theres something about you,I just watched you (fire!)
<b>Bb</b> And I tried to work	memories of you keep flashing through my mind cant keep it up and me cant resign Destination street and me no see no sign Got to rise above to cross borderline
<b>Dm</b> And I tried for her, I tried	
<b>Bb</b> I can't forget that day I got you	I tried cuz I tried to change and I tried to stay, tried to stay the same And I tried to work And I tried for her, I tried
<b>Dm</b> Theres something about you, I just watched you
