

S.O.J.A. (Soldiers of Jah Army) - Shadow

Tom: C

C , F , Am , G

I'm not a shadow
 I'm not the ground beneath your feet
 I'm not a shadow
 When you look down, you wont see me
 Ill stand up and ill stand tall
 I don't follow anyone
 I'm not a shadow, cause I'm not a shadow

C , F , Am , G
 Here's to you don't settle, and never separate
 And never be quiet cause the words you say
 You never go back on and never turn around
 Never judge another cause as stupid it sounds
 C , F , Am , G
 Cause when you see others knowin' they're all brothers
 Knowin' they're all sisters, seein' the big picture
 If they're not with you, then they're against
 And were here now when they are way back when
 C , F , Am , G
 So why try to please everyone?
 When it seems that all the people really want
 Is to show love, and out and get love back
 Is to show some faith and get respect
 C , F , Am , G
 Just look at the world then, you look at the problems
 And look at the hatred, and we still cant solve it
 So look inside and you'll find step one
 Forget a diamond I'm shinin' like the sun

I'm not a shadow
 I'm not the ground beneath your feet

I'm not a shadow
 When you look down, you wont see me
 Ill stand up and ill stand tall
 I don't follow anyone
 I'm not a shadow, cause I'm not a shadow

C , F , Am , G
 Here's to you on your own, the innocent criminal
 You never fit the mold, you never go sit down
 You never go get approval no matter how you prove
 That love is the motive in everything you do
 And revolution is you and you're against the machine
 You know who you are and you know what I mean
 And when this record stops you would never slow down
 When the video is over you want your turn now so
 C , F , Am , G
 You make the truth and move straight ahead
 While the followers behind you get left for dead
 For the imminent brainwash follow the dumb rules
 Created by individuals who unlike you
 C , F , Am , G
 Don't care for the world or, care for the people
 They love it their way, and they love unequal
 And they love when they feel above someone
 I don't follow the leader when they're all wrong

'Cause
 I'm not a shadow
 I'm not the ground beneath your feet
 I'm not a shadow
 When you look down, you wont see me
 Ill stand up and ill stand tall
 I don't follow anyone
 I'm not a shadow, cause I'm not a shadow
