

# S.O.J.A. (Soldiers of Jah Army) - Sing To Me

tom:

Intro: B Gb Abm Ebm E B Gb  
B Gb Abm Ebm E B Gb

[Primeira Parte]

I move along with my guitar, never goes away  
She is with me through the night and in the morning she stays  
I wash away like yesterday, float down the stream through all my way  
Since she accompanies my steps in all my days-

[Pré-Refrão]

She has six strings that I know just how to work and how to play  
We speak a language of our own every minute of the day  
We get along into the song  
I find her heart and I make it strong  
And she backs me up when everyone has gone away

[Refrão]

She sings to me

[Segunda Parte]

She never goes very far  
Stays around no matter what I am doing  
She is there for me  
I know that she don't know the words  
I don't care, I kinda like it  
Less the talking, a little more the melody

[Pré-Refrão]

She reaches out without a touch  
She knows that whatever I love  
Ends up broken in the past and out the door  
I have broken her before, I let her fall onto the floor  
I call it character and I love her more

[Refrão]

When she sings to me  
She sings to me  
She sings to me

## Acordes
