One more ride for the hell of it

Am
Cinder blocks are keeping me inside
Am                  C         D
Wall so thick, cold yet benign

One more try just for the hell of it

C       Em              Am      F            C
   Can I stay away from you if I get out of here soon?
           Em               Am             F            C
Would the road be paved by my mistakes, by the law or by you?
       Em           Am        F            C
Every wall in here is blue, every man here knows you too
          Em             Am        F
We have seen your every curve, the sole good purpose you serve

Am
