Play muted strings for the intro, then come in on Lee's riff:

Thurston just keeps up the same muted rhythm...

for the verse, palm mute this chord and chug away:

G-----
 G-----
 D--9--
 D--9-- same chord for both tunings
 G--9--
 G--9--

when shit goes crazy, lee hangs on this chord:

G--5--
 G--5--
 D--5--
 D--5--
 G--5--
 G--5--

thurston just goes crazy up the neck overtop...

then repeat the intro. etc etc etc

then, for the outro, T plays little stabs at this chord...

then lee comes in shortly thereafter banging the open strings too...
