

# Sonic Youth - Little Trouble Girl

Tom: **D**

T's tuning: EGDGED  
 Lee's tuning: DGDEGG (i'm not sure if this is right, but it sounds good...)

T's part:  
 T stays out during the intro (lee's weird chords, which i'll get to later), but plays this little melody line for the chorus...

chorus (cont.)

for the verse, T plays this little harmonic figure...

T's solo:

right after the solo, the song goes into the bridge, where T just plays a **C** chord  
 after the bridge, the chorus is repeated  
 after the second chorus, T plays a figure like this:

Lee's part:

for the intro, Lee does this:

this...

those are the basic chords for the chorus, but don't be scared to mess around with them some (it sounds good to throw in that 12th fret **E** from time to time)...

at the start of the verse (lee comes in around 1:07) plays this little thing:

then settles into these two chords for the majority of the verse (starting around 1:27)

at 2:28 he plays this little figure:

```
G-----
G---10--
E-----
D---10--
G---0---
D-----
```

he then returns to original verse chords at 2:32

for the bridge (T moves up to **C**), lee plays this chord...

```
G-----
G-----
E---10---
D---0----
G---0----
D-----
```

until the chorus returns (of course, you repeat chorus figure)..

when the outro comes (about 3:37), lee plays this part:

at 4:16, he plays this a few times until song ends

and that's it...peace, larsen...
