

Sonic Youth - The World Looks Red

Tom: **G**

Album - Confusion Is Sex

Tab by Talianiorky

Lee tuning: EADEC**D** w/ screwdriver @ 9th fret

Thurston tuning: ?

(thurston's original tuning isn't known but he tends to favor **F#F#F#F#E**B**** for live versions)

eventually he moves up to another chord. i can't find the exact chord, but something like this works (keep in mind that 0 is the 9th fret, with the screwdriver behind it, but the other numbers

are the actual frets):

hits open strings.

verse same as before.

after the 2nd verse, Thurston hits the lowest string and starts chugging away at it, while Lee's banging open strings, then goes back to the same as the first interlude.

the end has Lee banging away at the last chord tabbed up there, and Thurston running a drumstick up and down his fretboard.
