

Soundgarden - Hands All Over

Toque este riff no último refrão:

Como em outras músicas da banda, a 6 corda está afinada em **D** (Ré)

Esta é Hands All Over, na minha opinião é junto com Big Dumb Sex e Get

On The Snake as melhores do álbum Louder Than Love.

Letra:

Hands All Over
(Chris Cornell/ Kim Thayil)

Hands all over the Eastern border
You know what? I think we're falling
From composure...
Hands all over the Western culture
Ruffling feathers and turning eagles
Into vultures...Yeah into vultures...

Got my arms around baby brother
Put your hands away
You're gonna kill your mother

Gonna kill your mother...
Kill your mother...
And I love her

Hands all over the coastal waters
The crew men thank her
Then lay down their oily blanket...
Hands all over the inland forest
In a striking motion trees fall down
Like dying soldiers...Yeah like dying soldiers...

Hands all over the peasant's daughter
She's our bride
She'll never make it out alive...
Hands all over the words I utter
Change them into what you want to
Like balls of clay...
Put your hands away...
Yeah put your hands away...your hands away...
You're gonna kill your mother
Kill your mother...
And I love her
