

# Soundgarden - Hunted Down

Tom: **Gb**

The Main Riff goes:

In the introduction you play that eight times (for the last time, do not play)

After that the guitar plays the chords:

**Ab Bb B**

You basically play these two parts throughout the song, for the choruses, you play the **Ab**, **Bb**, **B** part at a longer frequency meaning:

**Ab**

The lyrics (I think are):

They saw you today as you were leaving  
 And they run to hunt you down  
 Dogs lead the chase as you are bleeding  
 They run to hunt you down

Your narrow escape  
 Has wiped the smile right from your face  
 Those stardogs howling  
 Run to hunt you down

You smile as you look in the mirror  
 Tears have left your eyes  
 Your face has a different experience  
 Formal and disguised

Your narrow escape  
 Has wiped the smile right from your face  
 Those stardogs howling  
 Run to hunt you down

Yeah,  
 I said run just to hunt you down  
 Right now, right now, right now, right now  
 Hey!  
 Hey!

For the final part (Hey! Hey!), the guitar plays **Bb**, **Bb** and fades out.
