

Mazzy Star - Halah

Tom: C
Intro: C G F C

Well I think I see another side
Maybe just another light that shines
And I look over now through the door
And I still belong to no one else
Maybe I hold you to blame for
All the reasons that you left
And close my eyes still I see your surprise
And you're leaving before my time
Baby won't you change your mind

Surely don't stay long
I'm missing you now
It's like I told you
I'm over you somehow
Before I close the door
I need to hear you say goodbye

Baby won't you change your mind

Solo: C G F C C G F C

I guess that hasn't changed someone
Maybe nobody else could understand
I guess that you believe you are a woman
And that I am someone else's man
But just before I see that you leave
I want you to hold on to
Things that you said
Baby I wish I was dead
Surely don't stay long
I'm missing you now
It's like I told you
I'm over you somehow
Before I close the door
I need to hear you say goodbye
Baby won't you change your mind
