Tuning: Standard but there is a bit during the beat breakdown bit at the end where there is a low C so you might wanna whip your five string out for that, otherwise just play that section up an octave, it still sounds fine.

Intro: G|-----|-----|
D|-----|-----|
A|-5-----3-----|-----|
E|---5-----3--|-1-----|

Verse
"How could you do it?..."
(Make up small fills here and there)
G|-----|-----|-----|-----|
D|-----|-----|-----|-----|
A|-----|-----|-----|-----|
E|0-0-----|-1-1-----|-0-0-----|-1-1--1-1-|

Chorus
"It doesn't wanna but it just won't let it go..."
(Play around the F)
G|-----|-----|-----|-----|
D|-----|-----|-----|-----|
A|-5-----3-----|-----|
E|---5-----3--|-1-1-----|-1-1-----|

Verse
"The clothes in the wardrobe..."
(Again make up small fills here and there)
G|-----|-----|-----|-----|
D|-----|-----|-----|-----|
A|-----|-----|-----|-----|
E|0-0-----|-1-1-----|-0-0-----|-1-1--1-1-|

Chorus
"It doesn't wanna but it just won't let it go..."
(Play around the F)

G|-----|-----|
D|-----|-----|
A|-5-----3-----|-----|
E|---5-----3--|-1-1-----|-1-1-----|

Here is a nice fill
G|-----|-----|
D|-----|-----3--5--|
A|-5-----3-----|-----3-----|
E|---5-----3--|-0-1-----|

Beat Breakdown section
There is basically one riff played with slides ect. Have fun with it, this bit is great for high stuff. You could possibly solo over the original bassline, have some fun. Here is the template bass

G|-----|-----|
D|-----|-----|
A|-----|-----|
E|-0-----|----10----8-----|
B|-----|-----1-----|

If you have no five string, no fear, just play it an octave higher with all of the lows up on your amp. Or you could even downtune down to C on the E string after the main part of the song finishes.

Have fun with the tune, its a great chillout song. Please rate.
