Intro:  E   Abm   Gb   Dbm
                  E
Is this real?
                Abm
Cause I can?t feel
   Gb
I reach into the darkness
      Dbm
And there?s nothing to hold
               E
Try to heal
                Abm
But spin my wheels
     Gb
The more I try to stop this
      Dbm
The more I lose control

E
Am I just a ghost in my own machine
Abm
In a sandbox in the entropy?
Gb
 Some reality got ahold of me
Dbm
And I don't think I?ll escape
E
Am I too attached a memory?
Abm
Stuck in my head for eternity
Gb
  Am I in a dream

Or the in between?
Dbm
I don?t think

                    E
'Cause I'm not waking up up up
       Abm
Waking up up up
       Gb
Waking up up up
       Dbm
Waking up up
             E
I'm not waking up up up
       Abm
Waking up up up

Conversations
       Abm
With simulations
        Gb
They say there's no escaping
        Dbm
It's a never ending road
       E
My salvation
                Abm
Is lost in translation
       Gb
The more I can't explain it
       Dbm
The more I lose control
