

# Startisan - Quit Or Run

Tom: D

G D A Bm  
 ?This ain't the life I'd planned / Man I sank so quickly  
 I'm drowning on dry land

G D A Bm  
 Shut your mouth, / You haven't drowned  
 You're only 3 feet under ground  
 You're giving up before / The Reaper's at your door

G D A Bm  
 Push to shove, / you're just a chump  
 You're standing Cliffside scared to jump  
 Bound for ground we're all / So leap, enjoy the fall

G D A Bm  
 It's a lonely road I know  
 And nothing ever stands between a bullet and your soul  
 It'd be easier to just succumb  
 The race is on, but you're still waiting for the gun  
 So either quit or run  
 ( G D A Bm G D A G )

G D A Bm  
 Paralyzed / The venom is seeping  
 Hope is fleeting from your eyes / Carrion before  
 your time

Bm G D A  
 You're atrophied from apathy / You've been too long  
 off your feet  
 G D A Bm  
 You dreamed of sanctity / But everything's gone  
 wrong

G D A Bm  
 It's a lonely road I know  
 And nothing ever stands between a bullet and your soul  
 G D A Bm  
 It'd be easier to just succumb  
 G D A  
 The race is on, but you're still waiting for the gun  
 So either quit or run  
 ( G D A Bm G D A G )

Gbm G D A  
 You've got the world to own  
 All you could ever hope  
 D A  
 Just tell me you're still able enough  
 Gbm G  
 There ain't another way  
 You either run or stay  
 D A  
 Tell me the will still remains  
 G D A  
 It's a lonely road I know  
 G D A Bm  
 And nothing ever stands between a bullet and your soul  
 G D A Bm  
 It'd be easier to just succumb  
 G D A  
 The race is on, but you're still waiting for the gun  
 So either quit or run
