               A (forma dos acordes no tom de G )
                                                             [Segunda Parte]
Capostraste na 2ª casa
Intro: Am
              D
There must be something about her
                                                             It'd be wiser for me to run away from all I see
That you love, don't you, dear?
                                                             I can't resist, what good is love if not to miss

Something about her
                                                            Your hands or your eyes
[Primeira Parte]
                                                             Or the way that yours just look in mine?
                                                             I'd die to live for any little part of this
She was kinder to me than most girls would ever be
                                                             [Refrão]
I'm over the moon, and I'm sad to see it end so soon
                                                                         \mathsf{Am}
Oh, what have I done?
                                                             There must be something about her
I'd never thought this way for love
                                                             That you love, don't you, dear?
                                                                   D
                                                                                    G
Convinced that it is all because
                                                            Something about her terrifies all my fears

                                                             She sits in a smile, with eyes looking through
                                                                     G
                                                            What's the point of all this music

                                                             If I'm not here to dance with you?

She sits in a smile, with eyes looking through
What's th? point of all this music if I'm not here to dance
                                                            Ooh-ooh-ooh
