

# Stereophonics - Everyday I Think Of Money

This is 100% accurate, however if you disagree, have any corrections comments or questions, e-mail me at the above address and i'll do my best to reply. This one's for Kerry McHale, hi mate!

This songs uses three guitars, two electric throughout and a 12 string acoustic during the bridge, however the second electric part can be substituted for a piano or keyboard and the 12 string for a normal acoustic.

The second guitar only plays the riffs and fills and where there are none I have put G2 (tacet) instead of taking up loads of space with tab lines.

The harmonica part is the only thing i'm not sure of, but that can easily be improvised based on the positions i've given below. (I used one in key of G )
