

# Steven Universo - Independent Together

Tom: F

Nothing is holding you back now  
 No one can push you around  
 What do you wanna do?  
 You're the master of you  
 And isn't the thought enough to lift you off of the ground?  
 Nothing is holding me back now  
 No one can push me around  
 What do I wanna be?  
 I'm the master of me  
 And isn't the thought enough to lift me off of the ground?  
 We could be independent together  
 Independent together, we can fly  
 Independent together  
 Independent together  
 Independent together

Independent together, you and I  
 High above an endless sea  
 No one brought us here but me  
 Every step and every choice  
 It's my thought, it's my thought, it's my words, it's my voice  
 Independent together  
 Independent together, we can fly  
 Independent together  
 Independent together  
 Independent together, you and I  
 Independent together  
 Independent together, we can fly  
 Independent together  
 Independent together, you and I  
 Independent together, you and I
